

LIBRARY ORGANIZATION

This section describes the components of the Northern Telecom Meridian 1 library and lists the manuals that make up the library.

LIBRARY COMPONENTS

The library contains the following components.

FIGURE 1
MERIDIAN 1 LIBRARY COMPONENTS

Library

The set of Northern Telecom Publications (NTPs) for a particular system, such as the Meridian 1 library.

Manual

A book that contains hard-copy technical reference document(s) intended for NT customers. A manual is one of the following:

- *Perfect-bound book.* A group of related NTPs . It is identified by a P0 number.
- *Spiral-bound guide.* An NTP that is spiral-bound and identified by a P0 number.

A manual is identified by a P0 number; an NTP is identified by an NTP number.

P0 number

Identifies a publication that is separately orderable. The P0 number has this format:

P0XXXXXX = unique publication order number

For example, P0842658 is the P0 number of the Meridian 1 System installation and maintenance guide. Refer to “Meridian 1 manuals” on page 10 for a listing of all the Meridian 1 P0 numbers.

P0 numbers change with each product or library release. However, if you use an order code from a previous release, Nortel sends you the most current version of the publication.

NTP number

Identifies a unique NTP. The NTP number has this format:

AAA-BBBB-CCC

AAA = the product or division. For example, 553 identifies Meridian 1 NTPs.

BBBB = a family of related NTPs. For example, 2671 identifies Automatic Call Distribution (ACD) NTPs.

CCC = the major content of the NTP. For example, 110 identifies a product description NTP.

MERIDIAN 1 MANUALS

The Meridian 1 library is organized by task into manuals:

- Library navigator P0868057 (1 manual)
- System planning and engineering guide P0868058 (4 manuals)
- System installation and maintenance guide P0868059 (3 manuals)
- System and software upgrade guide P0868060 (5 manuals)
- Remote service products P0868061 (1 manual)
- X11 software features guide P0868062 (3 manuals)
- X11 system management overview, applications, security, and
Emergency Services Access P0868064 (1 manual)
- X11 input/output guide P0868065 (4 manuals)
- X11 data features P0868066 (1 manual)
- X11 hospitality features P0868067 (1 manual)
- Networking features P0868068 (3 manuals)
- ISDN Basic Rate Interface P0868069 (1 manual)
- Automatic Call Distribution reference guide P0868071 (1 manual)
